because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of any additional fees.

Continuation of Box II Reason 2:

Claims 20-21 could not be searched because they are not supported by the specification. These claims recite a therapeutically effective amount of a protein of claim 19. The specification provides no indication as to how much of the protein of claim 19 is therapeutically effective in any subject.
